

Pick Your Favourite E-commerce Website

- Presented by:
- **Pravalika Singarapu**
- B.Tech CSE | RGUKT
- MICRO IT Internship Project

Project Objectives

- To design a responsive and visually appealing e-commerce website
- To provide an online shopping experience for ice creams and chocolates
- To practice and apply web development skills (HTML, CSS, JavaScript)
- To understand project structuring and real-world deployment
- To build a portfolio-worthy internship project

Project Overview

- Pick Your Favourite is an e-commerce website developed as an internship project.
- The website features a collection of ice creams and chocolates that users can browse and add to cart.
- It focuses on frontend development and user interface design.

Tech Stack Used

- HTML5 – Structure of web pages
- CSS3 – Styling and layout
- JavaScript – Basic interactivity (e.g., Add to Cart)
- Node.js , Firebase ,Backend placeholder)

Project Structure

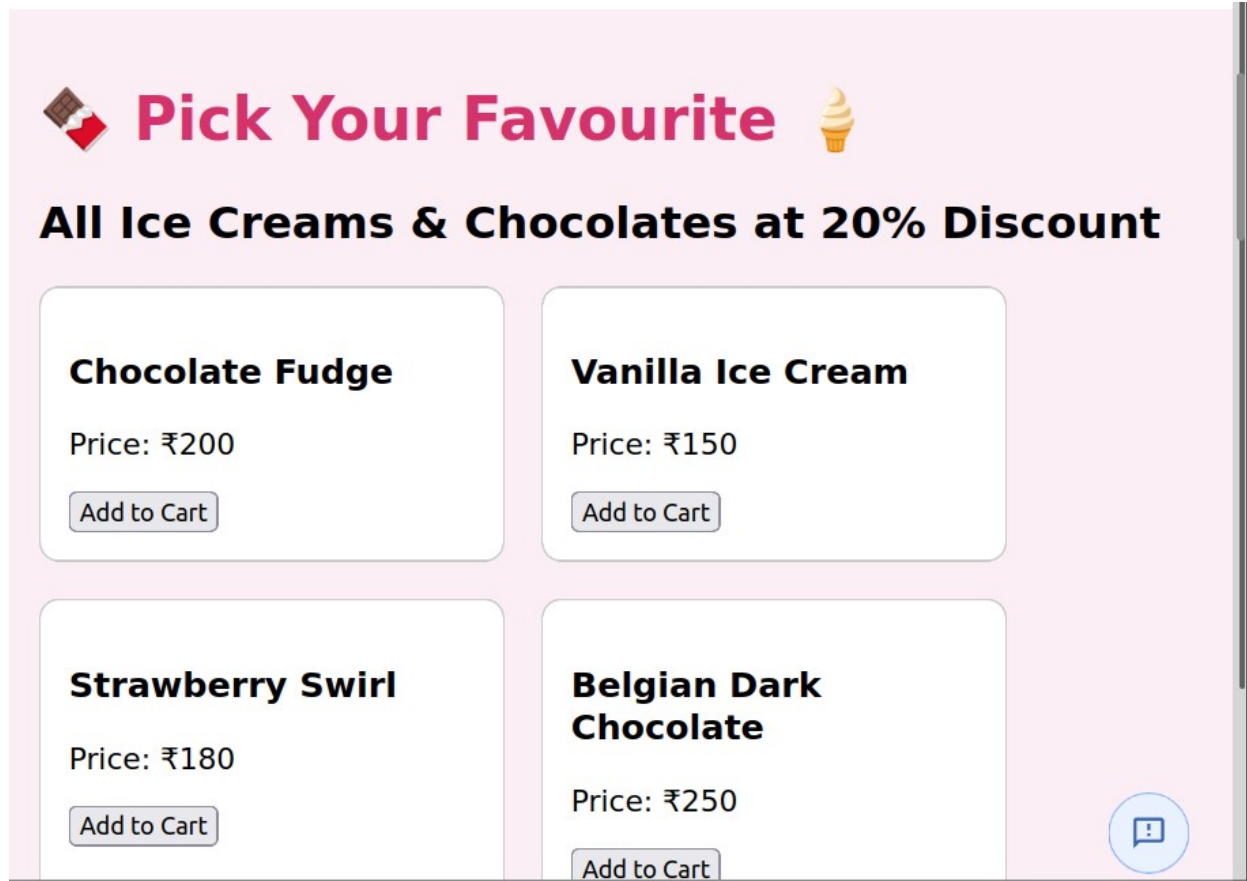

- Pick-Your-Favourite/
- |
- |— index.html
- |— products.html
- |— style.css
- |— script.js
- |— /images
- |— README.md

Key Features

- Product listings with images, prices, and descriptions
- Add to cart functionality
- Clean and intuitive navigation
- Responsive design for desktop and mobile
- Scope for backend integration

Your Cart

- Belgian Dark Chocolate - ₹250
- Strawberry Swirl - ₹180
- Chocolate Fudge - ₹200
- Belgian Dark Chocolate - ₹250

Total: ₹880

Discount: 30%

Final Price: ₹616.00

Future Scope

- Add authentication (login/signup)
- Real-time cart and order system
- Backend integration for product data
- Admin dashboard to manage products
- Payment gateway integration

Conclusion

- Successfully built a functional and attractive e-commerce website.
- Gained practical experience in frontend technologies.
- Understood the workflow of project development and deployment.
- This project boosted my confidence and skills in real-time web development.
